PASSION FOR INNOVATION

AND MANUFACTURING

Manufacturing and innovation are sources of inspiration. We strive to improve the adaptability of wooden flooring in terms of production technology and space coordination, and reflect various application scenarios with different series and performance. Floor Melody will continue to develop new forms, continue to innovate, and continue to manufacture the best floors for brand owners.

Hardwood Mineral Core Flooring

UV Lacquer/UV Oil:

durable, and keeps its natural wood colour for a long time.

Real Wood:

Choose high-quality natural wood veneers. Natural knots, grain and colour variation for the best look.

Mineral Core:

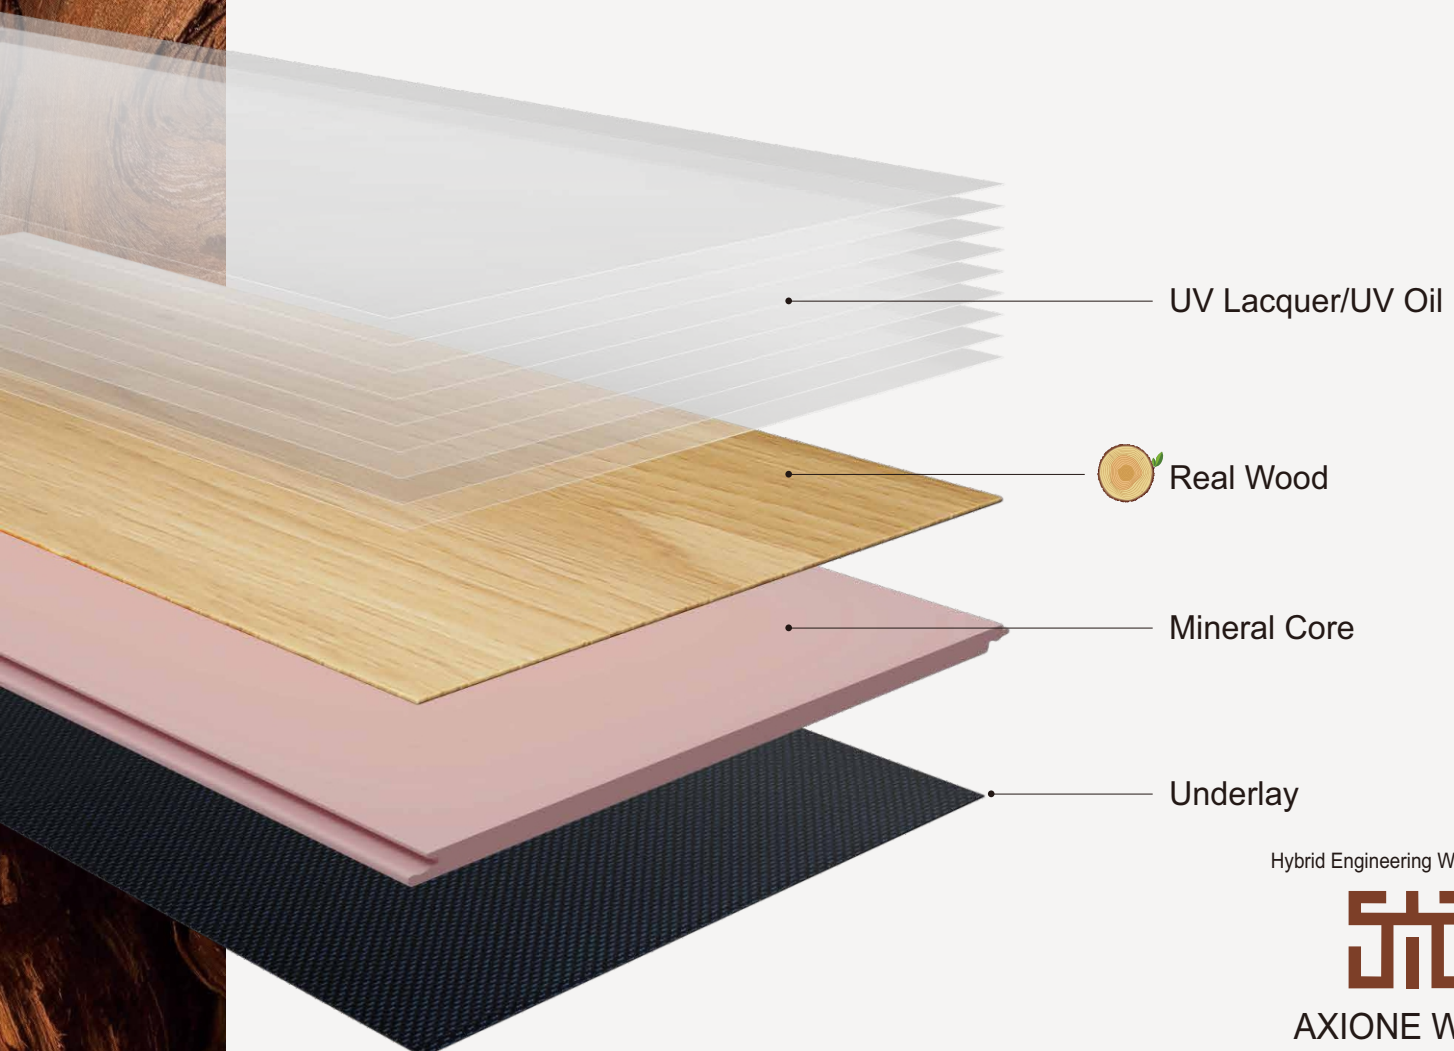

Natural calcium magnesium material better temperature stability. Strength+, durability+ and tenacity+. And it is rich in magnesium oxide, which releases magnesium ions and is beneficial to human health.

Click:

Floor Melody uses the Unilin locking system to make floor installation easier and tighter.

Underlay:

Mold & Mildew resistant IXPE underlay provides better noise reduction and a softer feel underfoot. Cork and poplar also are available.

Symbiosis with Nature

Hybrid Engineering Wood Flooring

AXIONE WOOD

Leader in Advance Flooring

Floored by nature Created for life

Based on the actual needs of customers, Floor Melody constantly refreshes customers' perception of high-quality products. Save you unnecessary worries, let you face life easily.

easy to REAL

Hardwood mineral core flooring is most proud of getting the wish of real wood while gaining performance improvements. This extraordinary craftsmanship allows the beauty of nature to delight your life.

EASY TO LOVE

High-end flooring is not only eco-friendly and safe but also in line with the current public's pursuit of healthy living. In addition, Floor Melody perfectly combines skin-friendly quality and modern design style.

EASY TO CLEAN

No need to cry over spilled milk and falling cheese, hardwood mineral core floor ability to resist stains makes it a regular occurrence in kitchens and dining rooms. Keeping clean surfaces is no longer a problem.

EASY TO WATERPROOF

Because accidents do exist. Sophisticated UNILIN locking system and improved UV coating provide double protection for floors from penetration and contamination by spills.

EASY TO PLAY

The sturdy mineral core (rigid) can withstand strong impact, and the UV coating can resist the impact of sharp objects. Performs well in both home and office.

EASY TO DIY

We provide technical support for various installation and removal solutions. Easily assemble the pattern you want based on your ideas.

FM-AX7001 White Washed

Japandi
(Japanese-Scandinavian Fusion)
White-stained wood floors are perfect for Japandi, a style that merges Scandinavian minimalism with Japanese simplicity. The flooring's light tone keeps the space bright and enhances the calming, harmonious vibe central to Japandi interiors.

Complementary Colors:
Natural hues like beige, taupe, and soft green work beautifully, alongside clean-lined furniture and organic textures like bamboo, wool, and linen.

@Woodleigh Residence

European Oak

Asian-Inspired Zen

Red oak can enhance Asian-inspired spaces, creating a calming, natural atmosphere that pairs well with minimalist decor, natural textures, and zen-inspired elements.

Complementary Colors:

Soft grays, sage greens, muted blues, and whites create a tranquil palette, while bamboo, rattan, or other organic materials add harmony.

European Oak

Modern:

Scandinavian:

This style emphasizes simplicity and functionality. Light grey flooring works well with whites, light woods, and natural textiles to create a cozy and airy feel

FM-AX7005 Ash Oak

Walls:

Light grey flooring pairs beautifully with soft whites, muted pastels, or even bold colors if accentuated properly.

Furniture:

Choose furniture in contrasting colors (e.g., dark wood, navy, or black) to create visual interest.

Accessories:

Add pops of color through rugs, curtains, and decor to brighten the space.

Lighting:

Consider the natural light in the space. Light grey flooring can make a room feel larger and brighter, especially when paired with adequate lighting, like pendant lights or floor lamps.

@81 Ubi Ave 4

European Oak

Urban Contemporary

Dark gray oak fits seamlessly into contemporary urban interiors, giving spaces a polished, sophisticated base. It works well with high-contrast furniture, clean lines, and a neutral color palette.

Complementary Colors:

Blacks, whites, and grays keep the look sleek, while bold accents like red or mustard can add energy to the space.

Yong An Park

FM-AX7010 Rose Oak

Modern Rustic

Orange oak brings warmth and a natural feel to modern rustic interiors, combining contemporary and rugged elements. It works well with minimalist furniture and raw, natural materials like stone and wood.

Complementary Colors:

Soft grays, beige, and creamy whites balance the warmth of the flooring, creating a clean yet earthy aesthetic.

**Starbucks
@Millenia Walk**

@Sentosa Cove
24 Cove Way Harbourfront

FM-AX7202 Golden Walnut

Scandinavian with a Twist

While Scandinavian interiors traditionally feature light woods, American walnut provides a more dramatic base while still aligning with the simplicity and functionality of the style.

Complementary Colors:

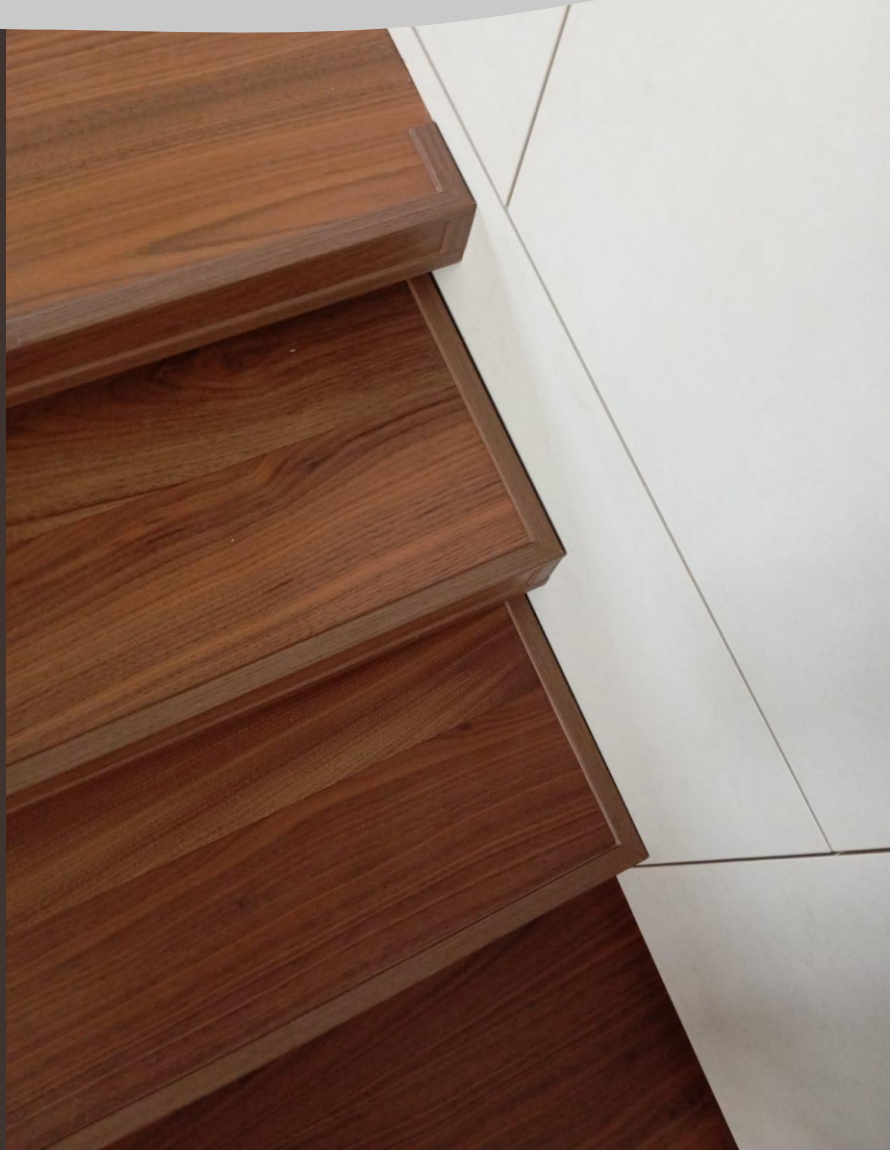

Whites, soft grays, and cool blues create a clean, airy feel, letting the walnut floor stand out as the room's main visual anchor.

Transitional Style

In transitional design, American walnut floors bridge traditional and modern elements. They pair well with both classic and modern furniture, making them a versatile choice for spaces that blend styles.

Complementary Colors:

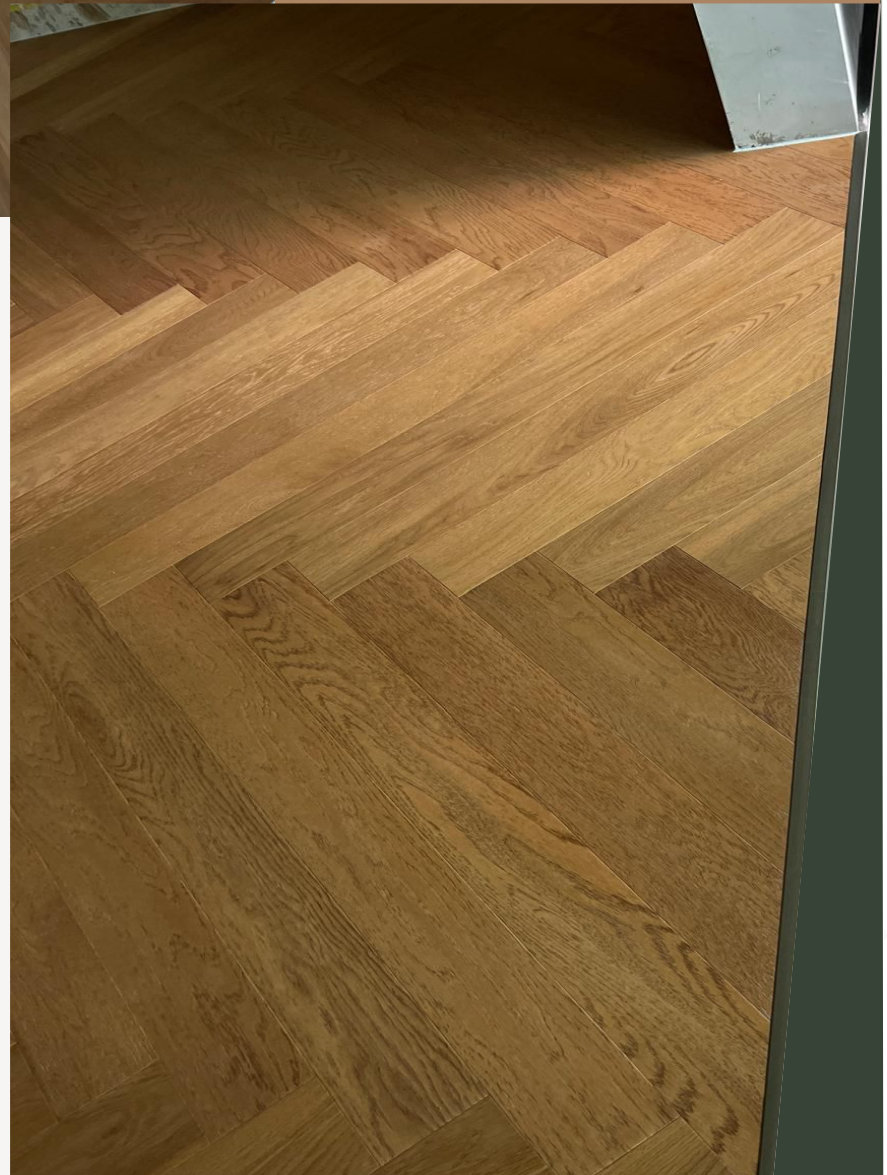

Soft neutrals, warm beige, and muted pastels bring balance to the walnut's rich tones. out as the room's main visual anchor.
